

**DANNY LEE ( -14)**

---

**Q. Sum up the week for us. Not a bad week for you in the long run, where you've been in the last few weeks as well?**

**DANNY LEE:** Yeah, I'm actually very happy with how I finished. Had a lot of birdies on the first round and I got a two-stroke penalty hitting someone else's golf ball. Hit a lot of chunks into the water, but I still managed to shoot 14 under out here. I was very pleased with how I finished.

**Q. How's the body feeling this week with the humidity, the weather as well?**

**DANNY LEE:** Being hot out there definitely helped, it's better than cold for me right now. Got here Wednesday morning and I was struggling with my back. I almost was thinking about pulling out this week, but my chiropractor and doctor --

**Q. They fixed you up good?**

**DANNY LEE:** Yeah. He helped me a lot. If he wasn't here, I probably would have less chance to play this week because I was just struggling with my back for a while. I was not supposed to be here after playing the Chicago event, what happened out there. They told me 12 weeks injury so you need to stay home and rest. I didn't feel any pain after a couple weeks later. I've been doing a lot of rehab workouts and really focus on my body instead of practicing. Didn't feel any pain, that's why I wanted to come over here. I wanted to be here and compete with all these guys out here.

**Q. Looking forward to next week, going back to Korea?**

**DANNY LEE:** Yes. Last time I was there was, I don't remember when, but I think it's going to be a great event. CJ is one of the biggest Korean companies and probably one of the biggest companies in the world. I'm looking forward to it and let's see how it goes next week.

**Q. Just back to this week, what do you enjoy most about being in this event in Malaysia, the CIMB Classic?**

**DANNY LEE:** Everything. The golf course, the people out here, they're very cheerful and they pull for everybody out here.

**Q. How about outside the golf course?**

**DANNY LEE:** The hotel we're staying at, it's awesome. It's right in front of the shopping mall and there's great restaurants over there. You don't really need to go somewhere to find a good restaurant. Best part out here, there's a convoy going back and forth that makes you feel like -- not saying we're not important, we're not that special, but I guess Malaysia, the PGA TOUR is really helping us out for giving us a convoy and stuff. That's a very unique experience.
