

**ROUND 3 INTERVIEW**  
**March 31, 2018**

**PAUL DUNNE (-12)**

---

**Q. I think it's fair to say you probably haven't even played your best golf yet this week to put together a full round yet?**

**PAUL DUNNE:** Yeah, I mean, I haven't had a round really where I felt like I holed the putts where I needed to. Maybe the first round I holed a few nice ones, but even then I missed a couple inside 10 feet. On these greens there's no excuse for it really. Today there was a lot of chances I left out there and I got off to a nice start, but then I was very sluggish for like eight or nine holes and I was surprised to see myself so close to the top of the leaderboard still. So it was nice to pick up a couple coming in and give myself a chance tomorrow.

**Q. For the first time this week it looks like conditions are going to be about the same, identical tomorrow that is they were today. What do you take from today, what did you learn from out there today that you can carry into tomorrow?**

**PAUL DUNNE:** Just where your chances are. You know, with the wind direction the way it is, it gives you a few chances in the first eight holes to get under par, get a few under. I haven't played the stretch of 10, 11, 12 very well but there are chances to pick up some shots. There's just certain holes that you know on the tee when they're playing into the wind that you're just happy to get away with a par and then take your chances on other holes. With the greens being as good as they are, if you just give yourself putts inside 30 feet, you'll have chances all day, you'll make a few of them.
