

---

**Q. Tough day at the office, obviously different conditions?**

**FRED COUPLES:** Yeah, no, it was very -- you know, for a while I didn't think we were going to play and then we played and I didn't really play. Then I just, you know, I started hitting it and hoping for the best. It's very difficult. Now it's pretty nice out, so hopefully the people out here can see some good golf, but it wasn't in our group, although Lucas played pretty darn good to shoot what he shot, but it was hard. It was blowing, as everyone knows, and crap was everywhere and a firm tricky golf course.

**Q. Next year's a long way off. Do you think you might come back?**

**FRED COUPLES:** Yeah, no, I'd love to come back. I talked to Jeff and I'd love to come back. Today was, you know, I guess I bogeyed the first four holes and had a 6-iron on a par 5 and I thought, okay, here we go. I didn't birdie that and then I three-putted the next hole, so 5 over after six. It was hard. I mean, what could I have shot today? Maybe even or 1 over, but I just couldn't do it.

**Q. Has it been a little invigorating for you to play here and maybe play with some of the guys that --**

**FRED COUPLES:** Yeah. I haven't seen Lucas in a long time and obviously Snedeker and Cantlay, so that was a great pairing for me. Hunter, yeah, just fun to watch him play and see him, see some of the new guys on the range pound it. You know, they hit it a long way.

**Q. It wasn't 9,000 yards, so that's a good thing?**

**FRED COUPLES:** Yeah. Some of the courses will be, though.
