

**SHAWN STEFANI (-8)**

---

**Q. Shawn, thanks for coming to the cart for a chat. Two rounds of 66, yesterday six birdies and two bogeys. Today, five birdies and one bogey. What's been the strength of your game so far?**

**SHAWN STEFANI:** Just playing consistent golf, you know. I've been hitting the ball really nicely. I've been putting well. I haven't made everything, but I've made some good putts. I think just playing solid over the last two days is owing in aid you believe.

**Q. This is the final event of the regular PGA TOUR season. You're currently outside the Top 125, you make your way into the Playoffs. Just how did you approach this week? 134th, you need a big week. How did you approach it mentally and technically?**

**SHAWN STEFANI:** Just to come out here and play good golf. I mean, obviously there's the pressure of trying to get your card, but at the same time I'm still wanting to win on Tour. I've never won on Tour, so I would love to come out here and compete and get in contention and win on the weekend.

**Q. You came in here in 2016 133rd, finished tied 14th, made your way to that Top 125. How much can you draw on that experience, you've been here and done it before?**

**SHAWN STEFANI:** Yeah, absolutely. A lot of experience from that year in 2016, and last year just trying to get in the top 150, I had to play well. So I think, like I said, I think if you just come out here and have the attitude and mindset of playing golf, everything else will take care of itself. So if we focus on one shot at a time and what we're trying to do, then everything else will follow.

**Q. We talked about the pressure that you guys were under, the bubble boys. How does it compare to being in contention, because you've been in contention.**

**SHAWN STEFANI:** Honestly I think it's more nerve wracking being on the bubble than it is to try to win a golf tournament, because when you're playing really well, you don't really think about it too much, you know. When you're on the bubble, you're just trying to get into that Top 125 to keep your status for next year. Obviously I'm outside that number now, but I've been playing well the last several months, so my mindset on the weekend's going to be, look, I'm playing some good golf right now, keep going and playing good golf. Don't worry about where you are and what could and could not happen. Focus on what we're doing and see what happens.
