

ROUND 4 INTERVIEW
August 16, 2020

BILLY HORSCHEL (-20)

Q. Billy, just talk about the putt there on 18.

BILLY HORSCHEL: Yeah, that was tough. Doc gave me a fairly good read. Based off his, his ball didn't snap across the hole, and seeing I was a little bit higher up on the slope, I thought my ball wouldn't break. If his ball didn't break, mine really isn't going to snap off. So I thought if I just played it just outside right edge a ball, ball and a half, hit it with -- kept the speed up on it, I thought it would make it in. I hit it the way I wanted, I felt like I started on my line and about halfway to the hole I thought I made it and it just snapped off. it was disappointing because I had two good looks the last couple holes and just wasn't able to convert.

Q. Even though you didn't win overall, the week, a big success, especially heading into the FedExCup Playoffs, how much confidence are you going to take from this building into the next three weeks?

BILLY HORSCHEL: There's a lot of confidence to take from this. It's been a while since I've actually had a really great chance to win a tournament and this being one of them. I felt I played really well today, especially with not feeling great with my swing. Just really did a lot of good things and had a chance coming in. When you have a lead with three left to play with a one-shot lead and you've got three fairly makeable birdie holes, you're thinking I knew I need to at least make one, maybe two to get it done. Just wasn't able to happen today. It's a little disappointing. A lot more positives. I'm happy Todd Anderson's going to be out next week because, like I said, I hit it great the first two days, but today wasn't that great. So he saw something I'm hoping on TV, which I know he did, and we'll get to work on Tuesday and hopefully be right back in this position on Sunday.
