

**Q. Wyndham, could you just assess your round for the day?**

**WYNDHAM CLARK:** I grinded out there today. I didn't have my best. I kind of had a shaky start and then even when I started making some birdies, I still wasn't hitting it great, I just kind of relied on my short game and putting today, which kept me in it. The score ended up being good, but I definitely didn't have my best. So going to go work on it and try to get it for tomorrow.

**Q. Yeah, you said you're going to head to the range. What are you working on in particular?**

**WYNDHAM CLARK:** Well, I'm kind of slicing it right now and I ended up just playing it throughout the day, but I'd like to straighten it out. Tomorrow's supposed to be windy, so it would be nice to have my ball-striking tomorrow.

**Q. How were the conditions today compared to yesterday?**

**WYNDHAM CLARK:** Well, when we teed off yesterday I felt like it was very tough in the morning for the first nine holes, then got pretty easy. Then the scores were better in the afternoon. This morning there was no wind and this afternoon it got really firm. So I actually thought it played a little tougher this afternoon and I think the scores are showing that. The course got really firm. There were some shots where I thought I hit it in a perfect spot and it released farther than I thought. Yeah, it's playing tough. It's a really hard course.

**Q. Are you able to make mid-round adjustments when it's possibly getting firmer and faster hole to hole?**

**WYNDHAM CLARK:** Yeah, I mean, that's kind of the name of the game regardless of the conditions. You kind of have to adjust mid round. Definitely early after a few shots we were land -- let's say if we were trying to land three to four paces yesterday, we're landing more five to seven paces short, and if it blows tomorrow, it could even be more. If it continues to get firmer with the wind that's coming, it's going to play really tough tomorrow.
