

WYNDHAM CLARK (-7 through 15)

Q. Wyndham, what's going on with your back? I know you grinded on the first tee shot, kind of put your hand on it, looks like it's still bugging you.

WYNDHAM CLARK: Yeah, grinded on almost every shot. It's kind of been nagging me all week and then I was in the trailer warming up and I threw a med ball and it just went out on me. I ended up only getting about 20 minutes of warmup this morning because I was doing whatever I could to get it to be able to go. I almost withdrew before we played, but I just told my caddie, hey, let's just see what we can do out there. Was fortunate that the break happened so I'm glad we kept playing. Even then it was pretty brutal all day, but my short game and putting helped me out.

Q. Did you get it worked on during the break?

WYNDHAM CLARK: Yeah. I don't know if that was the right thing to do, but it is what it is right now. I'm hoping that some rest and maybe some more work on it tonight, we'll be able to go tomorrow, because it would be hard to do this again tomorrow so hopefully I can get it okay.

Q. Have you had back issues in the past?

WYNDHAM CLARK: No, I really haven't. This is a muscle flareup. It's nothing disc related down low, it's just kind of mid back. It just is so tight and it's really hard for me to -- I can kind of turn this way, but as I come through, I mean, I'm like trying as hard as I can to do whatever I can to hit the ball. Warming up I was hitting 7-irons like 120 yards and I normally hit it 180, 190. So I don't have all my power and I kind of save it up and then I hit it as hard as I can on a shot and then relax and then do it again.

Q. What hole were you on when they stopped play this morning?

WYNDHAM CLARK: Middle of hole 2.

Q. Did you have anything, a ball move or anything like that in your group or with you?

WYNDHAM CLARK: No. On the first hole, first green, I mean, it was just crazy like just as far as, I mean, Jordan's putt he played like 30 feet of break, unbelievable two-putt. Then Alex had probably a 30-footer and I bet you he hit it four feet -- a four-foot putt that went all the way to the hole, and I had about a 15-footer that I bet you I hit a foot that went all the way to the hole. It was just very extreme. Then we weren't to the really hard holes yet, but I

mean, seeing some of the pin placements and how they played after we went back and how tough they were, it would have been -- yeah, it was definitely unfair I think earlier, for sure.

Q. Did you notice, were they softer in the afternoon, the greens?

WYNDHAM CLARK: I mean, maybe when we started. As we were finishing up, we were downwind on 12, 13 and 14. I was landing 60-degree wedges 15 paces short of the flag and going past the flag. That's still really firm.

Q. Was it possible to hit the 14th green today?

WYNDHAM CLARK: We honestly, Jordan and I were talking about it, and Alex, and we said over/under five guys that held the green. It might not even be that many. We all landed 9-irons and 8-irons as high as you could middle of the green and it bounced over, so I don't think so.
