

**ROUND 3 INTERVIEW**  
**June 13, 2021**

**JERRY KELLY**

---

**JERRY KELLY:** Wow. Okay, now it got me. I can't say enough about the people behind me. Steve, Nicki, love you guys. It's just awesome what you've done for the city and what you've done in your career. I mean, I'm humbled. Thank you very much for all the support you've always given.

Jim, Nate, awesome job, guys. I mean, just fantastic. But Jack, seven-year extension, really? I don't think everybody realizes that just doesn't happen often. It takes something really special. This is something really special back here. You should all be really proud of what they've brought to this city because it's absolutely a world-class event for us. It's a major for a lot of us and thank you very much.

Grounds crew, what an unbelievable job. I mean, c'mon, really? That course was fantastic this week. I didn't know it could play that hard. We've always played it so soft, and it was just a fantastic job of getting it there and keeping it there through all this weather. Awesome job.

Volunteers, thank you for all you do, especially -- I don't know how many went down on Friday, but you guys were out here giving your heart and soul. We really appreciate it, so thank you very much.

But the fans, thanks for coming out. I mean, you guys have given us so much support over the years. We can't do enough to give back to you guys. Thank you, thank you, thank you.

And last, I'm sorry, my two favorite women: My wife, Carol, and my mom, Lee. Without my son Cooper, I don't think I could have done it, because he was hammering me last night just making sure I got everything back in the right place after 18. It was awesome, the support that they've given me. Mom, thank you. But Carol and Coop, last night was fun. That was awesome, that helped a lot.

All my family members and extended family -- all my extended family, you're all family anyway. Love you all. Thank you so much. Can't wait to be back next year. Thank you.
