

JHONATTAN VEGAS (-8)

Q. Jhonattan, when you show up at a golf course, at these golf courses and you see perfect weather like this, do you feel like you have to be a little bit more aggressive and know you have to take advantage of these type of days?

JHONATTAN VEGAS: You do. Your mind has to be on go, especially for us on the 10th tee, which was our first hole today, I mean, it's somewhat of a drivable hole and it's kind of hard hitting a 6-iron and a wedge into the green. Sometimes when the wind is like this, you have to be on go, try to make as many birdies as you can. We're lucky enough that pretty much the whole group was making birdies and it was great to kind of keep the rhythm all the way through. Yeah, you have to be in aggressive mode out here today.

Q. What was working so well for you today?

JHONATTAN VEGAS: Just ball-striking, ball-striking's been great. Just keeping the ball in play, hitting from the fairway, hitting from somewhere around the hole, playing for birdie a lot of times. Obviously made some pretty solid putts today and it's just kind of one of those rounds where you just have to let go and just enjoy it and try to shoot the lowest you can.

Q. Do you feel like over the last few months your game's maybe been trending in this kind of direction?

JHONATTAN VEGAS: It's been trending the right way for a while. I had three close calls last season finishing second three times, feel like I've been playing really good. Obviously just been struggling a little bit with energy. It's been a long 18 months out here on Tour since we got back from COVID, so kind of felt like we've been playing a lot, but besides that the game is in a great place and just going to enjoy it.
