

**ROUND 3 INTERVIEW**  
**April 30, 2022**

**ALVARO ORTIZ (-6)**

---

**Q. Alvaro, just talk about your round today. I know it was a tough finish, but you had some good things going early in the round.**

**ALVARO ORTIZ:** Yeah, it was a great round, it was a great round. I had two bad holes, but the other 16 I think were impeccable. I hit the ball really well, I just lost a little of the feeling there at the end, but I did so many good things. I putted incredible, I thought I hit the ball really well off the tee and gave myself a lot of chances. Just feeling well and excited for tomorrow. I already want to go out there and try to make a low one tomorrow.

**Q. Sounds like you put that behind you, sounds like you have a really good attitude, but how do you process that? Do you go to the range and do something before tomorrow?**

**ALVARO ORTIZ:** Definitely. I don't think it was like a technique mistake, it was just a little more tempo and that's what I'm going to try to go out there and do it at the range right now, try to find a good rhythm, some good feelings and just take them tomorrow to the course with me.

**Q. How hard is it to just stay in the moment when there's a lot of things on the line, a top-10 would get you into next week, stuff like that?**

**ALVARO ORTIZ:** Yeah, they're always there. I don't think -- I think that whoever tells you that they can play without them in their mind, I think they're lying. It's always there, it's always present, but it's all about like keeping your routine as the most important thing out there, and your process and stay focused, stay in the present and I think if you do that, it will go very well.
