

**ROUND 2 QUICK QUOTES**  
**20 October 2023**

**JUSTIN SUH**

---

**Q. Justin, let's just start with the conditions. How difficult was it out there today, and obviously managed it pretty well?**

**JUSTIN SUH:** Yeah, I think we had the first hole and a half where the wind didn't pick up, and we were hoping that it didn't come until the fourth hole because that's one of the toughest tee shots out here. But throughout the day it just kind of kept on gusting. You'd get one every five minutes that would come like 40 miles an hour and it was pretty insane.

Overall, I thought I was able to hit those low shots really well with my irons. Drove it pretty good, kept it in play. Didn't have any big misses, made some putts, so that kind of sums up my round.

**Q. I guess what were some of those key moments? I think on a day like today, you make a couple putts for par here and there to keep the momentum going. Was there any, I guess, that stood out to you?**

**JUSTIN SUH:** Yeah, actually the hole on 4, I hit a great drive in the middle of the fairway, hit my iron shots a little squirrely in the bunker right, made like a 12-footer for par, so that's kind of a good momentum save for the round.

After that, I ended up birdieing my next few holes. Out here, like if you can just kind of keep it in play, not hit into the trees, I think the course is pretty receptive. But today, even if you're in the middle of the fairway, it's still tough.

**Q. Do you think coming into this week, did you feel like your game was trending into getting a good performance like this, getting off to a good start? How would you assess where everything's been lately?**

**JUSTIN SUH:** Yeah, I think over the past couple months I've played tournaments kind of sporadically. I went over to Switzerland after a few weeks off, had another week off after that, went to Napa, three weeks off, played in Vegas. It was hard to like get continuous good rounds, but overall I felt like I've been putting in some solid work in the offseason trying to take care of my body. Just felt really good today.

**Q. And then just going into the weekend obviously being right there in contention, what's the mindset, and again just being back in that spot with a chance to win going into Saturday?**

**JUSTIN SUH:** Nothing really changes. I think overall just kind of keep an eye on the

conditions. Obviously won't be as windy as it is today, so our lines are going to have to go back to what we originally planned out. Just kind of adjusting to what the wind and forecast kind of settles.

I think just try not to get too ahead and just look at what you have.
