

**ROUND 4 QUOTES**  
**January 27, 2024**

**JAKE KNAPP (-11)**

---

**Q. Jake, great playing. Coming up a little bit short of what you wanted to finish here, but overall a very solid week for you. What positives are you going to take is a way from this week?**

**JAKE KNAPP:** Yeah, a lot of positives obviously, felt like I did a lot of things well. Didn't putt very well, but I think everybody probably struggled on that this week. Then just felt like my ball-striking got better every single week so can definitely build on that. Overall, just felt comfortable all week. I like how I handled everything. Yeah, looking forward to the next few tournaments.

**Q. Did it help having that fan support behind you playing nearby to your hometown?**

**JAKE KNAPP:** Yeah, of course. I think I definitely got a few extra cheers even if I tapped in for par. This is as close as I've ever gotten to playing a home event for me. Playing Korn Ferry, Canada, nowhere close. Yeah, it was really nice having friends, family and having some people out I haven't seen in a long time.

**Q. How much confidence does a high finish like this give you moving forward the rest of the season?**

**JAKE KNAPP:** Yeah, a lot of confidence. Obviously this is -- I want to be able to compete on this tour and I want to win out here, but more importantly, just want to feel like I go out there and play to my full potential. Yeah, obviously this week was good. Would have liked to get a couple more, but a lot of good thing to take away.

**Q. What's it like to, you know, you have to head back to the putting green and you kind of wait. What goes through your head in that moment? Also, somebody's trying to follow what's happening on 18.**

**JAKE KNAPP:** Yeah, it's a lot going on, for sure. You just do your best to control what you can control. You're not worried too much about what they're doing. Obviously, if something crazy happens, you've got to be ready. Just wanted to go over there, hit a few putts. Didn't really want to celebrate just yet. It was a solid week and everything else. But coming that close, I think kind of towards the back nine today we kept on saying we just want to give ourselves a chance and we were able to do that and kept hitting good golf shots. Was definitely more focused on trying to win it rather than too excited over finishing second or third.

**Q. You're so early in your career, you missed more cuts than you made and then a**

**tournament like this happens. How much is this potentially a game changer in your mind?**

**JAKE KNAPP:** Yeah, I think last season was probably -- on Korn Ferry was a big year for me just to go out there and feel like I'm ready for this tour and I proved that to myself. Stop setting kind of external goals and trying to win this event, win that event, finish here, whatever. It's just go out there and play to my potential and feel like I squeezed every last drop out of my game.
