

ROUND 4 QUOTES
January 27, 2024

KEVIN YU (-10)

Q. As we said on the way over here, 5 under's a great round on this course. What was working so well out there for you today?

KEVIN YU: Today I felt I was driving the ball way better today compared to the last two rounds on South. The key out there is just got to hit fairways, which I did today. Putting was pretty solid today so it helped me make a lot of clutch putts and then birdie putts, too.

Q. Right now sitting in that fifth spot as it stands at the moment for getting into next week at Pebble Beach. I'm not sure what it's going to shake out like, but what would it mean to you to get a start like that in the second signature event of the season?

KEVIN YU: Yeah, fingers crossed right now, but I'm happy what I did at the last -- this week and last week. I mean, back-to-back top-10s, this is the first time for me. Yeah, I can see the game is trending right now, so hopefully I can keep it up and hopefully get into next week and hopefully coming up signature events. So looking forward to what's coming up, for sure.

Q. Was that a big goal for you at the start of the season, at the start of this week to try to play your way into Pebble Beach and also put yourself in a better position trying to qualify for the Genesis?

KEVIN YU: Yeah, definitely, that definitely is a goal for me this season, but I wasn't really thinking that much right now, just out there I was just trying to play my best and hopefully every shot can do what I feel like I can do. So really just trying to focus on the course, but definitely that's a goal coming up this season, yeah.

Q. Kevin, these last two rounds on the South Course, very different for you but you hit 14 greens both days. Can you just describe the difference in hole locations or whatever it is, weather, can you just describe that difference in your score as well?

KEVIN YU: Yeah. Like today definitely not as much wind out there. I feel like the pin positions is definitely also generous today, but definitely I feel like I was hitting a lot more fairways today, which helped me have like second shot for me is much easier like compared to hitting in the rough so I can have more chances of attack the pin. Yeah, just hitting a lot more fairways today, which helped me a lot.
