

**ROUND 2 QUICK QUOTES**  
**February 16, 2024**

**ROB McNAMARA**  
**EVP, TGR Ventures**

---

**Q. With the WD, was it purely illness? Was it -- just explain it.**

**ROB McNAMARA:** Yeah. So he started feeling some flu-like symptoms last night. Woke up this morning, they were worse than the night previous. He had a little bit of a fever and that, and was better during the warm-up, but then when he got out there and was walking and playing, he started feeling dizzy.

Ultimately the doctors are saying he's got some -- potentially some type of flu and that he was dehydrated. He's been treated with an IV bag and he's doing much, much better and he'll be released on his own here soon.

**Q. Just to confirm, with all the EMT trucks, you know, everybody, the personnel here, everybody was thinking there was a lot of seriousness going on. So nothing structural as far as back or ankle or --**

**ROB McNAMARA:** Correct, correct. Not physical at all, his back's fine. It was all medical illness, dehydration, which is now the symptoms are reversing themselves now that he's had an IV.
