

**ROUND 4 QUICK QUOTES**  
**February 18, 2024**

**CHASE JOHNSON (+5)**

---

**Q. If you could just recap your week on the course for us.**

**CHASE JOHNSON:** No, it was a fun week, really challenging test of golf. I mean, this course is hard, you get punished for good shots, the greens are so firm and some of these greens are tough to get to. Just experience. I hit a lot of good ones that now having seen the course in these conditions I definitely would have taken a yard or two or five off and played a little bit more aggressively to get it closer obviously. Sometimes playing safe you get a kick and it scoots off to 50 feet or off the green.

It was fun, learning experience. Played solid, just didn't score my ball at all on the weekend. Hit it better than I did the first two days, though.

**Q. And then just recap the week for you in general and being here and your family following you along and every experience along the way.**

**CHASE JOHNSON:** No, it was an incredible week. It was a lot of fun having all the support. I had my parents, my fiancée, family friends cousins from North Carolina, Florida, Ohio, Illinois, here in California, everywhere. Like the whole U.S. was out here watching me and I appreciate the support. And a lot of support from locals, too.

It meant the world to play in an event hosted by Tiger Woods. It was an incredible week and I can build off of this going forward. I have Cognizant in a couple weeks that I'm in, and I had a ton of fun with the sponsors events. I'm very grateful for the exemption this week and looking to see what damage I can do in the future.

**Q. And going off of that, what's next for you in a couple weeks? I know you mentioned Cognizant. Just how are you using this experience going into the next month or so?**

**CHASE JOHNSON:** So I have a redeye flight tonight and then I land and get to drive five hours straight to a practice round and have an APGA event Tuesday, Wednesday. So today is going to be a long day, my day won't end until tomorrow.

Then I have Cognizant coming up, and now I made a cut so I can go right into Monday. Didn't get as many points as I would have liked for PGA TOUR this week, but got a few and hopefully can play well at Cognizant. Then we'll just chase Mondays and float between that and the APGA and see how many points we can rack up and hopefully at some point earn some temp status.
