

**STEPHEN AMES (-8)**

---

**Q. Stephen, 7 under on the day, round of the day so far. Just takeaways from Round 2?**

**STEPHEN AMES:** First group out (Laughs.) It was a good day, had one bogey, one bogey. Other than that, no, it was very steady eddy. Gave myself a lot of opportunities. I've been working on my putting this week and that's paying off, which is nice.

**Q. What adjustments did you make from yesterday and today?**

**STEPHEN AMES:** We added a little bit more work on the putting trying to get my eyes over the ball a little bit more so I can see the putter head a little bit, and also the fact that I actually had my putter head closed at address, so that doesn't help. We squared that up a little bit. It was just a matter of getting adjustments to it and being comfortable with it and the ball rolled really nicely today, so it was nice.

**Q. What would it mean to add another one to the trophy case?**

**STEPHEN AMES:** No, stop. We've got another day to go, we don't know. You know, we always strive for that, but at the stage right now I'm just happy where I'm at right now. I get to sleep in tomorrow. Hopefully it will be a little warmer again and not have to wear sweaters. I think overall just going to make the most of each week as we go along.

**Q. Last question, just being here, the Cologuard Classic, just the impact this tournament has?**

**STEPHEN AMES:** Obviously, yeah. The biggest thing is -- actually, the one I'm representing this week is actually from Canada and he's had prostate cancer twice. At this stage right now we're here to support them, support those who really need it as much as we can and Cologuard does a hell of a job here this week.
