

RETIEF GOOSEN (-9)

Q. Goose, 5 under today, 9 under currently, just takeaways from Round 2?

RETIEF GOOSEN: Yeah, I got off to another nice start, the front nine has been good to me. Nice eagle putt on 11 from, I don't know, about 40-feet away. Then two really bad bogeys coming in, but was nice to get a couple of birdies coming in and giving yourself a chance for tomorrow.

Q. Did the conditions play a factor yesterday? What adjustments did you make heading into this round?

RETIEF GOOSEN: It was actually quite similar. Yesterday obviously a tiny bit cooler, but slightly different wind today so some holes played totally different than they did yesterday.

The course is in great shape. If you play well, you're going to score low. We saw that today, a couple guys shot very low scores. So tomorrow it's going to be who can shoot the low round to win.

Q. And then just this tournament in general, what it really means, raising awareness for colon cancer, how has it impacted you? And then just being able to see all the blue out there and then who you're playing for this week?

RETIEF GOOSEN: Yeah, yeah, I've been representing Tracy this week and he's been walking with me every round, so it's nice to see that. I had my Cologuard test in December, so yeah, everybody should get it done. You never know. Luckily, I came back negative, but it's something you need to do often.
